

## Don't Grip & Tear - Cut & Remove with our Cervical Rotating Biopsy Punch Featuring New Top Jaw

365mm

Low Profile for better access

### The Design Checklist

- ✓ New top jaw is now stronger than titanium, and 4x the strength of previous jaw
- ✓ Allows a biopsy to be taken from a hardened cervix
- ✓ Low profile jaw provides better access to the transformation zone when it migrates into the endocervical canal
- ✓ 360° rotation enables enhanced positioning and patient interaction
- ✓ Useful for increased HPV testing demands
- ✓ New product code **CBR1041**
- ✓ UK manufactured

YOUR SINGLE-USE SOLUTION WITH CONFIDENCE

## Clinical Value - First Time Sampling at your Fingertips

**TIME**

Our Cervical Rotating Biopsy Punches save clinic time through effective first time sampling

With 97% of orders sent out the same day we guarantee to meet your service needs, avoiding costly delays. Reducing hospital stock holding and improving lead time for instruments

**LIFE**

New top jaw ensures a sharp, clean cut reducing cervical trauma and patient discomfort

Single-use eliminates the risk of cross contamination

Delivers the clinician with the best possible view to enable more accurate results

**COST**

No burden of sterilisation costs

Reduces call backs for inadequate samples saving £100's

## Clinicians' Experiences

Don't just take our word for it ...

**"It's excellent that you have improved the new jaw on the Cervical Rotating Biopsy Punch, it is much stronger and removes previous issues we had taking a biopsy from a hardened cervix. It is great that you have taken our feedback on board and made this improvement to the instrument, thank you."**

Helen Crookes, Senior Sister, Calderdale Royal Hospital

**"I love the Cervical Rotating Biopsy Punch. You can really notice the difference in how the product performs so much, that I do not have any problems using it on more demanding patients. The product feels sharp like a hot knife through butter."**

Gill Costello, Sister, Northwick Park Hospital

**"The new forceps are really decent. No problems at all and very good specimen is obtained."**

Garima Srivastava, Homerton University Hospital

**"It's amazing how light it is! I'm really impressed with the new jaw it's so sharp."**

Harrogate District Hospital

**"I really like using the Biopsy Punch because it gives me an accurate biopsy as it has sharp edges so I know I will get a good sample. I use it for Cervical and Vulvar/Vaginal biopsies."**

Hilda Dunsmore, Gynaecologist & Colposcopist, New Victoria Infirmary
